

Divers Group delivers full lifecycle ICT solutions starting from refresh, deployment, relocation, tracking and monitoring up to disposing, recycling and re-marketing of any number of IT or Audio-Visual equipment.

Proudly holding the strongest track record in the industry, Divers provides a wide array of services to a range of government departments, councils, universities, and commercial enterprises in New Zealand and on smaller scale in Australia.

With 32 years history, working in the ICT logistics industry, we have developed and maintained long term relationships with our clients. Ensuring that our relationships are built on a high level of trust and credibility.

TechTraders is a division of Divers Group Ltd.

Tech Traders on the other hand specializes in the remarketing of refurbished, ex-leased, and ex-demo IT equipment.

Why Techtraders?

- For each device sold on Tech Traders, we will offset the CO2 emission of a 500km car trip.
- You are in safe hands; we are not only an e-commerce website but also an ICT Logistics company that provides its services to some of the largest organizations in NZ.
- All our devices go through a strict testing and auditing process.
- Above all, with us, you can become an environmental hero.
